ELENA'S MARGIN WAS ONLY 17 SECONDS. Plant's Schooner in Hot Race With the Westward.

New Bedford, Mass., Aug. 8.—Massive productions of the old English silversmiths were handed over the side of the schooner Irolia, owned by E. Walter Clark of Philadelphia, and the Seneca, owned by Demarest Lloyd of Boston, and the sloop Istalena, owned by George M. Pyrah of New York, as the result of a long but interesting and at times exciting run today of the New Bedford regatta. It was the big schooner Elena and Westward, however, that furnished the real sport of the day, for a longer and more hotly contested race has seldom been sailed by two such large yachts, while the margin at the finish in favor of the former was only 17 seconds in corrected time. The fight between the two boats, which began last Friday at Glen Cove, now stands 3 to 1 in favor of the Elena.

STATE GRANGE BOORISHNESS. Washington is Still Talking of the Snub to Taft.

Washington, Aug. 7.—The report of the Connecticut state grange to meet the president at the state fair in September is the subject of conversation whenever two or more residents of the state meet. Expressions of respect are heard on all sides at the occurrence and the hope is expressed that no considerable number of the members of the grange will indorse the action of their officers.

The Washington Post printed the following on its editorial page: "Whatever the credit and influence that may have been possessed by the Connecticut state grange, they are lost by the action of the officers of that organization in notifying the directors of the Connecticut state association that they will not participate in the reception to President Taft early in September because of his advocacy of reciprocity with Canada."

"That great portion of the public that has never heard of the Connecticut state grange before will feel that it is being introduced to an irresponsible organization which is seeking notoriety at the expense of its own state. There may be a few real farmers in the organization, but the discourteous notification came apparently from only two men—F. E. Duffy of West Hartford, whose occupation is unknown, and John H. Hall, who is a state railroad commissioner and an executive officer of the concern."

"Neither the Connecticut Fair asso-

ciation nor President Taft will be much concerned by the offensiveness of the grange. No doubt the people of Connecticut will take occasion to do double honor to the president in view of this exhibition of boorishness by a few of their citizens."

POLICE HAVE BATTLE WITH RIOTING NEGROES. Trouble Started by Arrest of Blacks Who Were Annoying Women.

New York, Aug. 7.—The "strong arm squad" of detectives from headquarters and the police reserves from three precincts battled tonight with 300 rioting negroes in Harlem, routed them and arrested thirty-five of the ringleaders, whom they corralled in the streets and small shops. The riot followed an attempt to arrest a score of the blacks who were annoying women and other pedestrians on the streets. During the encounter the police were bombarded with bricks, stones and beer bottles from the windows and roofs of nearby tenement houses. Eleven were hurt.

A police lieutenant standing on a corner and waving a pocket handkerchief, after he had secretly placed a cordon of bluecoats and detectives about the score under surveillance, gave the signal for the fight. The rioting confusion the negroes rushed by the score from nearby buildings. The fight was hand-to-hand in many places, the negroes outnumbering the police five to one or more, but the bluecoats used their nightsticks generously with telling results.

SCHOOL TEACHER AND A DOCTOR DROWNED. Large Launch Collided with Smaller One, Upsetting It.

White Lake, N. Y., August 8.—Miss Bessie Rubenstein, a New York school teacher, was drowned this afternoon in White lake, taking with her to the bottom Dr. Herman Gluckman of Brooklyn, an expert swimmer, who had gone to her aid. Eight other persons, occupants of a small launch, were thrown into the water, but were rescued.

The accident occurred but a few yards from the shore, when a larger launch, making its half-hourly trip across the lake, collided with the smaller craft containing ten persons. Miss Rubenstein entwined her arms about Dr. Gluckman's neck and he was powerless to break her hold. Both bodies were recovered.

SOUGHT DEATH BECAUSE WIFE IS TOO AFFECTIONATE. Her Passion for Hugging and Kissing Got on His Nerves.

St. Louis, August 8.—Philip H. Nickerson, a salesman, cut his arteries in an attempt to end his life, because, he said, at a hospital today where he is recovering, his wife is too affectionate. He has been married only three months.

"I'm fond of my wife," he said, "and I want her to be fond of me. But there is a limit to all things. She wants to sit continuously on my neck and hug and kiss me. If I stand up she stands up, too, and puts her arms about me. It got on my nerves."

WORE WEDDING RING TOO LONG. It Became Imbedded in Flesh and Caused Blood Poisoning.

Chicago, August 8.—Mrs. Jessie Stewart Gardner died here because she had refused too long to take her wedding ring from her finger. The finger had increased gradually in size. It finally became imbedded in the flesh, and caused an interruption of blood circulation. With much reluctance Mrs. Gardner consented to have it filed off. Owing to the delay, blood poisoning developed and resulted in her death. Her husband survives her. She was sixty years old.
